council of black studies and as a long time student who seriously studied the history of my people with an eye toward making a contribution to our future this book begins with a look at what i view as some of the foundation points during the outset of black studies departments on american college campuses the campuses selected which i believe contributed most profoundly to the formation of black studies in america are san francisco state university uc berkeley emory university pennsylvania university rutgers university university of florida gainesville university of massachusetts uc santa barbara uw milwaukee vassar university and yale university i then move to an analysis of an article where african american graduate students made the grandiose claim that black studies was swaggering into the future the article to be analyzed which appeared in the april 12 2012 edition of the chronicle of higher education was so insultingly disheartening that one of the sections in my analysis is titled swaggering into the future or staggering into it i add another section that closes out my views under the sub heading the local swagger blackface in action shifting and focusing to the university of nebraska omaha i offer some history and analysis of how the department came into being on that campus i follow up with a more scathing critique of what has taken place in recent years due to external administrative decisions and internal internecine conflicts information regarding the intentional mis education of black students throughout the omaha public school district are also explored finally an overview and analysis of the role of black studies related courses at the high school level the issues of direct input downsized integration and diluted involvement will be explored black studies has undergone a plethora of challenges over the decades today in 2018 the issues are more than just racist reactions from anglo administrations the issues include the rise in a right wing among students at american universities and the general malaise of black students except during times of responding to various crises the links to the community appear to be disappearing except in the south and the east coast and various special interests including the gay lobby are latching onto the black movement and using that movement to push their own agenda this book is a starting point and is open to critique and analysis but every great advocacy for change must begin somewhere if no one has written a book that is as personal and direct as this one let this then be the first sifa ina ote watu weusi all praise is due to black people
